

Mobile App Developer (iOS/Swift)

Contact Information:

- **Full name:** David Evans
- **Phone number:** +61 412 345 678
- **Professional email:** david.evans@example.com
- **LinkedIn:** [linkedin.com/in/davidevansiOS](https://www.linkedin.com/in/davidevansiOS)
- **Location:** Sydney, Australia

Professional Summary: Dedicated iOS Mobile App Developer with 3 years of experience in designing, developing, and launching native applications for the Apple ecosystem. Proficient in Swift and Xcode, with a strong understanding of UI/UX principles, performance optimization, and API integration.

Work Experience:

- **iOS Developer**
 - AppGenius Co., Sydney, Australia
 - September 2022 – Present
 - Developed and maintained core features for a highly-rated financial planning iOS application used by over 100,000 users.
 - Implemented complex UI layouts using UIKit and SwiftUI, ensuring adaptive design across various iOS devices and orientations.
 - Integrated RESTful APIs to fetch and display real-time data, enhancing app functionality and responsiveness.
 - Utilized Core Data for local data persistence and optimized database queries, leading to a 10% improvement in app load times.
 - Participated in the entire app lifecycle, from concept and design to testing, deployment, and post-launch support.
- **Junior iOS Developer**
 - Mobile Innovations, Melbourne, Australia
 - August 2021 – August 2022
 - Assisted in the development of a health and fitness tracking application, focusing on UI components and local notifications.
 - Conducted unit and UI tests using XCTest, ensuring code quality and bug reduction.
 - Learned and applied best practices for memory management and performance optimization in Swift.

Education:

- **B.Eng. in Software Engineering**
 - University of Sydney, Sydney, Australia

- Graduation: July 2021

Skills:

- **Technical:** Swift, Objective-C, Xcode, UIKit, SwiftUI, Core Data, Grand Central Dispatch (GCD), Core Animation, Auto Layout, RESTful APIs, Git, Unit Testing (XCTest), UI Testing, Push Notifications, Firebase SDK
- **Tools/Software:** Xcode, Instruments, Postman, Jira, Sketch, Figma
- **Soft Skills:** Attention to detail, problem-solving, user-centric design, debugging

Projects / Portfolio:

- **City Explorer (iOS App)**
 - Personal Project
 - An iOS application that allows users to explore points of interest in a city, view details, and save favorites. Integrates with MapKit and a public API for location data.
 - **Technologies used:** Swift, UIKit, MapKit, Core Location, Alamofire (for networking), Core Data
 - **Link:** github.com/davide/city-explorer-ios (Code)

Languages:

- **English:** Native
