

# Full-Stack Developer (Node.js/React)

## Contact Information:

- **Full name:** Chloe Davis
- **Phone number:** +1 (555) 987-6543
- **Professional email:** chloe.davis@example.com
- **LinkedIn:** [linkedin.com/in/chloedavisdev](https://www.linkedin.com/in/chloedavisdev)
- **Personal Website:** chloedev.me
- **Location:** New York, USA

**Professional Summary:** Versatile Full-Stack Developer with 4 years of experience building dynamic and scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in both front-end and back-end development, with a focus on delivering robust features and seamless user experiences.

## Work Experience:

- **Full-Stack Developer**
  - InnovateX Solutions, New York, USA
  - August 2021 – Present
  - Developed and deployed full-stack features for a cloud-based project management tool, leading to a 20% increase in user adoption.
  - Built RESTful APIs with Node.js and Express.js, integrated with MongoDB Atlas for data persistence.
  - Designed and implemented interactive user interfaces using React.js, leveraging hooks and context API for state management.
  - Configured and managed CI/CD pipelines using GitLab CI, reducing deployment time by 30%.
  - Utilized AWS services (S3, Lambda) for serverless functions and storage solutions.
- **Junior Full-Stack Developer**
  - WebCraft Agency, Boston, USA
  - July 2019 – July 2021
  - Contributed to the development of several client websites, handling both front-end (HTML, CSS, JavaScript) and back-end (Node.js) tasks.
  - Assisted in migrating legacy systems to a modern MERN stack, improving performance and maintainability.
  - Implemented user authentication and authorization modules using Passport.js and JWT.

## Education:

- **B.S. in Software Engineering**

- New York University (NYU), New York, USA
- Graduation: May 2019

**Skills:**

- **Technical:** JavaScript (ES6+), TypeScript, React.js, Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, Git, HTML5, CSS3, Redux, Context API, Webpack, Babel, Docker, AWS (S3, Lambda), Firebase, JWT, Passport.js
- **Tools/Software:** VS Code, Postman, MongoDB Compass, Gitkraken, Jenkins, Heroku
- **Soft Skills:** Agile methodologies, problem-solving, collaboration, detail-oriented

**Projects / Portfolio:**

- **Social Media Clone**
  - Personal Project
  - A full-stack application mimicking a popular social media platform, featuring user profiles, post creation, comments, likes, and real-time notifications.
  - **Technologies used:** React.js, Node.js, Express.js, MongoDB, Socket.IO, Cloudinary (for image uploads)
